To Board of Directors
Lake Shore Resort POA, Inc.
Brookville, Indiana

Management is responsible for the accompanying financial statements of Lake Shore Resort POA, Inc. (a corporation), which comprise the statements of assets, liabilities, and retained earnings – cash basis as of September 30, 2026 and 2025, and the related statements of revenue, expenses, and retained earnings – cash basis for the one month and nine month periods then ended in accordance with the cash basis of accounting, and for determining that the cash basis of accounting is an acceptable financial reporting framework. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any assurance on these financial statements.

The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Management has elected to omit substantially all the disclosures ordinarily included in financial statements prepared in accordance with the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Company's assets, liabilities, retained earnings, revenues, and expenses. Accordingly, the financial statements are not designed for those who are not informed about such matters.

Management has also omitted supplementary information about future major repairs and replacements of common property that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Financial Accounting Standards Board, who considers it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context.

Fixed assets should be capitalized and long-term debt should be recorded under the cash basis of accounting. Management has informed us that the interim financial statements expense fixed assets and principal payments on debt. Fixed assets and long term debt are recorded to the opening balance sheet of the subsequent year. Management has not determined the effects of these departures on the interim financial statements.

The budget for the period ending December 31, 2026, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the representation of management. The budget information was not subject to our compilation engagement. We do not express an opinion, a conclusion, nor provide any assurance on such information.

We are not independent with respect to Lake Shore Resort POA, Inc.
